Spring Tree and Tombstone Tour

The beauty of Woodlawn may change with the seasons, but its rich history is constant. The many family stories contained within its gates are literally etched in stone. The 90 minutes of leisurely walking, accompanied by our knowledgeable naturalist and historians through our nationally recognized arboretum tells our community history. Introducing docent Tedd Long.

"Okay, I admit it... I'm a history geek. Actually, I'm mostly an over-the-top storyteller. I've been telling stories since I could talk and I've enjoyed history since I was old enough to read. I love a good story! I'm fascinated by how people from the past lived in completely different worlds than we do today but they still laughed and cried, had a favorite color and food, hung out with best friends and authored interesting life stories just like you and me in the 21st century."

Come along with Tedd, as well as, Robert Lamlein as they tell the story of some of our industrial pioneers. Also hear about the beautiful trees that showcase many of these monuments.
