DIGITAL LABELING/MAPPING OPTIONS

The following web sources create digital plants maps for online display. They can be used by curators for online databasing of accessions/plant collections and/or be viewed by visitors via the internet or a mobile device. A publicly accessible online map of labeled woody plant species is an accepted method towards meeting ArbNet Arboretum Accreditation Program labeling requirements.

Mapping Source	Example Arboretum	Cost
Plantsoon	Draves Arboretum	None For 25 species
iNaturalist	Omni Amelia Island	None
My Maps/Google Maps	NC State Arboretum	None
Hortis	Cantigny	Software Cost
IrisBG	Royal Botanic Garden Edinburgh	Software Cost
GIS (ArcGIS/QGIS)	Loomis Chaffee Arboretum	Software Cost
Tree Keeper	Fort Collins City Park Arboretum	Software Cost
TreePlotter	Mary Price Ratrie Arboretum	Software Cost
